SUMMARY

Full-stack developer with 3+ years of professional experience building web applications with React, Next.js, TypeScript and Python. Lead developer at Morgan Technical Training, where I built the learning management system students use to learn remotely, covering course management, student tracking and assessments. I also train aspiring developers in frontend, backend and deployment. Frontend is my strongest area, and I am comfortable owning a feature from database to interface. Open to full-time or part-time roles, on-site, hybrid or remote.

TECHNICAL SKILLS

Frontend: React, Next.js (App Router), TypeScript, JavaScript, Angular, Tailwind CSS, HTML5, CSS3

Backend: Python, FastAPI, Flask, Node.js, REST APIs, JWT authentication

Data & Tools: SQLite, relational schema design, Git/GitHub, Linux, Cloudinary, Vercel

EXPERIENCE

Software Developer (Lead) & Technical Trainer Oct 2024 – Present

Morgan Technical Training · Kenya (Hybrid)

- Lead software development for the school's internal systems, including the learning management system students use to learn remotely, built end to end with course management, student tracking and assessments.
- Train aspiring developers in frontend, backend and deployment, guiding them through debugging and real portfolio projects.
- Work directly with clients and stakeholders to understand training needs and tailor content to measurable learning outcomes.

Software Developer (Intern) Sep 2023 – Feb 2024

iTalanta · Nairobi, Kenya (Hybrid)

- Contributed in building the user interface of the Elewa website with React and TypeScript under tight deadlines.
- Fixed frontend issues and submitted multiple pull requests to the open-source Goomza project (Angular, TypeScript).
- Reviewed implementations with senior developers, proposed solutions to customer requirements and contributed to quarterly application upgrades.

IT Consultant Nov 2020 – Nov 2021

Grizzly Systems LTD · Kenya

- Built websites for schools and businesses alongside the senior developer, contributing frontend work in JavaScript.
- Presented site workflows to clients and turned their requirements into delivered work.

PROJECTS

Portfolio – danielmuiruri.vercel.app

- Frontend and backend projects, including work still in development.
